

CS 3615 Program Assignment 2

MIPS Assembly Language Programming

Integer calculation. (100 marks)

Ask the user to input two integers and output the results of addition, subtraction, multiplication, and division.

The output may look like:

"The addition result is "

"The subtraction result is "

"The multiplication result is "

"The division is "

Only use small numbers in multiplication and division.

Save your program file as `calculation.txt`
