

CS 3615 Program Assignment 4 (150 marks)

MIPS Assembly Language Programming

Let the user input his/her full name (First_Name Last_Name), use a space to separate the names when input, then print out the characters in the first name and the characters in the last name reversed.

Sample output:

Please input your full name (First_Name Last_Name):

ABC WXYZ

Output: CBA ZYXW

Save your program file as reverse.txt
